

# LINESHEET

**Bass Tool** has been in business since 1978. Over the years Bass Tool has grown to become one of the leading suppliers in the Southwestern United States, employing over 70 employees and mastering the distribution of over 250,000 inventory items. Bass Tool has gained its popularity among both small and large customers due to its customer oriented philosophy. We treat our customers with care, provide them with the technical expertise they need and stock a wide range of high quality products. For these purposes, we have earned the trust of customers both in the U.S. and abroad.

In 2010 Bass Tool moved its operation to a totally new facility which was expanded in 2015 to include a total of 55,000 sq. ft. increasing our ability to stock all that you need.

Our new offices were designed with our employees comfort in mind and include ergonomic furniture, spacious work stations, user friendly computer system and a top of the line phone system. All of these comforts make for a very pleasant and productive work experience.

Inventory items are bar-coded and are scanned when received and shipped therefore eliminating mistakes.

We have built an inventory based upon sales history, industry trends and technological advancements. We stock what others consider "non-stock".

**WE OFFER YOU:**

- Free Local Delivery
- Large Inventory to eliminate back-orders
- 1760 page catalog available in print and on-line with search capabilities
- On-line ordering
- Inventory managed by our team on your premises assures constant supply of your most vital tools
- Trained sales force both inside and out to support you with technical questions
- Sophisticated bar-coding system to eliminate mistakes in order pulling

Our fleet is ready to deliver to most local customers, up to twice daily -- **FREE OF CHARGE!**

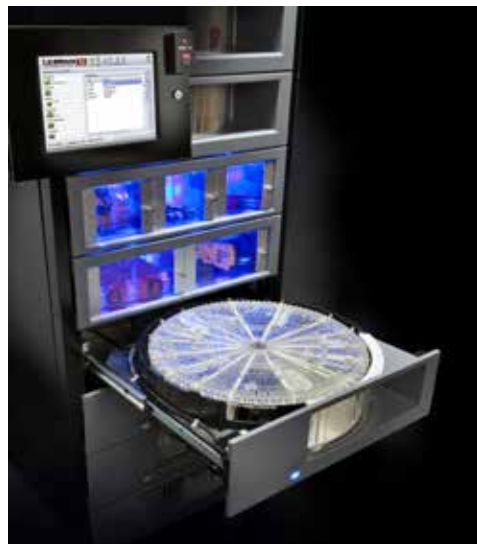

# WE OFFER YOU INVENTORY MANAGEMENT SOLUTIONS

Backed by a dedicated in-house team working around the clock to offer you:

- On-site stocking
- Database Management
- Supply Chain Solutions
- Custom Management Reports
- VMI Turnkey Solutions
- Custom VMI Programs

## VMI VENDOR MANAGED INVENTORY

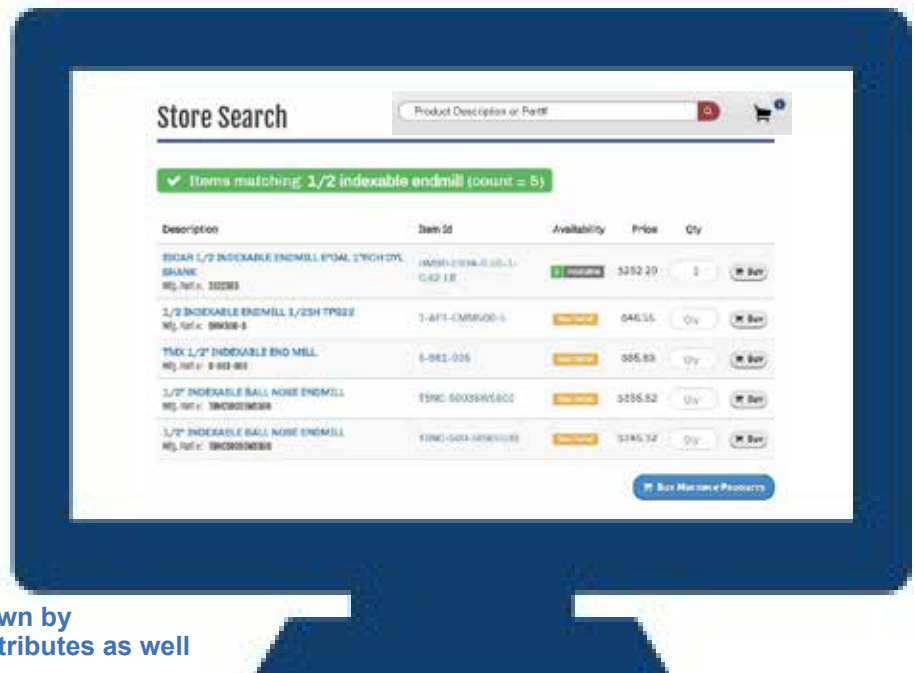

We have created an "Inventory Management Team" which assists customers with managing and organizing their inventory. This ensures they always have ample supply of tools and can track usage per job and per employee by utilizing the most sophisticated vending machines.

# WE NOW OFFER YOU Online Ordering and Customer Portal

## Benefits:

- Intelligent product searching
- Stock Checking
- See your own prices
- Place orders online
- View order status
- Review back orders
- Review unpaid invoices
- Maintain sub-accounts to allow others in your company to use the system
- Works on smartphones, tablets, and computers!

- **COMING SOON** - Ability to drill down by categories and filter by specific attributes as well as in stock!
