

**All packages include the following:**

- |   |   |
|---|---|
| 1. New product offer - 10% off 1 drum or more | 4. Haul off fluids for \$50 flat rate     |
| 2. Sump shark rental at no charge             | 5. EQO-KLEEN machine cleaner at no charge |
| 3. Empty tote for old product                 | 6. 1 day of labor at \$250                |

# XTREME CUT 232

## Premium Semi-Synthetic

**XTREME CUT 232** is our #1 selling coolant in the Houston market because of the unmatched performance (lubrication) on steels, and the corresponding tool life and part quality that goes with it. If you want to reduce your cycle times on ferrous metals, this product has documented savings to help you get there. Multi-metal safe, but built to excel on all ferrous metals, from mild steels to heat treated stainless alloys.

**Performance Benefits**

- Unmatched machining performance on steels and stainless alloys
- Economical to run – unique surfactant system dramatically reduces drag-out rates
- Extremely low foaming, even in high pressure with purified water
- Safe on all materials, will not stain sensitive aluminum alloys or yellow metals

- Outstanding resistance to biological degradation, even after months in a machine
- Formaldehyde free to comply with health and safety regulations

**Drum Package Price: \$1,968.53**  
**Tote Package Price: \$9,704.45**

**Please see above for additional items included into package price.**

**Additional cost savings via promo**  
**Buy 3 Drums = 1 Drum Free**  
**Buy 1 Tote = 2 Drums Free**

# XTREME CUT 230C

## Premium Semi-Synthetic

**XTREME CUT 230C** is premium semi-synthetic fluid for machining and grinding ferrous and non-ferrous alloys. This universal fluid delivers the lubricity and versatility of a premium soluble oil, yet has the cleanliness and heat control of a synthetic. Very low drag out rates means less coolant usage. Reduce your drum purchases, reduce cost.

**Performance Benefits**

- Operator friendly- this product has virtually no odor in use and is very mild to the skin
- Extended tool life- reduces nose, flank, and crater wear and prevents built up edge
- Long fluid life in both central systems and individual sumps
- Residue free parts and machine tools
- Complete rejection of tramp oil

- Easily recycled for reuse or easy waste treatment using standard metalworking fluid waste treatment systems
- Bimetallic corrosion protection for parts and machine tools

**Drum Package Price: \$1,807.85**  
**Tote Package Price: \$8,798.77**

**Please see above for additional items included into package price.**

**Additional cost savings via promo**  
**Buy 3 Drums = 1 Drum Free**  
**Buy 1 Tote = 2 Drums Free**

# Q-CUT 215 | Q-CUT 216

## Semi-Synthetic Cutting and Grinding Fluids

**Q-CUT 215** and **Q-CUT 216** are semi-synthetic cutting and grinding fluids for all metals. Great job shop products where the goal is minimal coolant maintenance and a moderate cost. **Q-CUT 215** is the standard option for all metals, while **Q-CUT 216** adds in extreme pressure additives for enhanced lubrication on steels and stainless alloys. Clean running, long sump life, low foam.

**Performance Benefits**

- Economical in use cost- low price per gallon and low usage rates as a result of reduced drag out and long sump life
- Minimal additive requirements
- Superior in-process corrosion protection for machinery and parts
- Good rancidity control to prevent unpleasant odors
- Effective balance between lubrication and cooling

- Residue-free parts and machine tools
- Rejects tramp oil effectively
- Good fine settling properties
- Clean running and long-lasting results in reduced consumption of concentrate

**Q-CUT 215**  
**Drum Package Price: \$1,339.50**  
**Tote Package Price: \$6,159.00**

**Q-CUT 216**  
**Drum Package Price: \$1,461.35**  
**Tote Package Price: \$6,845.77**

**Additional cost savings via promo**  
**Buy 3 Drums = 1 Drum Free**  
**Buy 1 Tote = 2 Drums Free**

**Please see above for additional items included into package price.**

# Q-CUT 225C

## Semi-Synthetic

**Q-CUT 225C** is a semi-synthetic coolant for ferrous metals only, especially cast iron, ductile iron, steel castings, and mild steels. Very clean running, even with the dirtiest materials. No residues, no smell, no rust. Not safe on aluminum.

**Performance Benefits**

- Economical in use cost- low price per gallon and very low usage rates as a result of low drag out rates and long sump life.
- Minimal additive requirements
- Superior in-process corrosion protection for machinery and parts.
- Exceptional rancidity control to prevent unpleasant odors
- Effective balance between lubrication and cooling
- Residue free parts and machine tools
- Complete rejection of tramp oil
- Good fine settling properties

**Drum Package Price: \$1,213.84**  
**Tote Package Price: \$5,450.70**

**Please see above for additional items included into package price.**

**Additional cost savings via promo**  
**Buy 3 Drums = 1 Drum Free**  
**Buy 1 Tote = 2 Drums Free**

# EQO-KLEEN SMP

## Operator Safe and Environmentally Friendly

### Moderate Duty

**EQO-KLEEN SMP** is a premium machine tool cleaner for individual sumps as well as large central systems. It breaks down oil residues without harsh caustic compounds or noxious fumes. It has a pleasant odor and helps eliminate any existing bacteria that will shorten the sump life after a coolant change.
